

Thu, 29 October 2026						
08:00	Opening Session		Neonatology	Paediatrics	Interdisciplinary	
09:00	Keynote Taking care of children in the war period					
10:00	Coffee Break					
11:00	Scientific Session Hypoxic-ischemic encephalopathy: new insights and evolving therapies	Scientific Session Congenital diaphragmatic hernia - The importance of underlying hemodynamic pathophysiology	Scientific Session New horizons in antibiotic therapy	Scientific Session Test, treat, trust	Scientific Session Smart nutrition: when to supplement	
12:00	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	
13:00	Lunch Break	Industry Lunchtime Symposium	Lunch Break	Industry Lunchtime Symposium	Industry Lunchtime Symposium	
14:00					Workshops	
15:00	Scientific Session Stem cell therapy in perinatal disorders	Scientific Session Treating circulatory failure: a delicate balance	Scientific Session Pre- and post-natal vaccination: RSV as a proof of concept	Scientific Session Transforming pediatric health: novel therapy approaches		Scientific Session Next-gen paediatric training: challenges and opportunities
16:00	Coffee Break					
17:00	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	
18:00		Industry Evening Symposium		Industry Evening Symposium	Industry Evening Symposium	
19:00	Faculty Dinner					

Fri, 30 October 2026					
07:00					
08:00		Industry Symposium		Industry Symposium	Industry Symposium
09:00	Keynote Virtual reality				
10:00	Scientific Session Respiratory and cardiac adaptation to less invasive surfactant administration: State of the art	Scientific Session Investing in early life to promote health across the life course	Scientific Session Nutritional support in high risk infants	Scientific Session The critically ill child	Scientific Session Vaccination: is it worth it?
11:00	Coffee Break				
12:00	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session
13:00	Lunch Break	Industry Lunchtime Symposium	Lunch Break	Industry Lunchtime Symposium	Industry Lunchtime Symposium
14:00	Invited Session Human organoids to repair perinatal injury	Invited Session The future of clinical trials	Invited Session Pulmonology and infection	Podcast Session ESN Neonatology Now & The Incubator Podcast	Podcast Session Don't forget the bubbles
15:00	Coffee Break				
16:00	Clinical/Medical Practice Seeing without touching: advances in non-invasive assessment during neonatal resuscitation	Clinical/Medical Practice Bundle of care to reduce iatrogenic blood loss in sick children	Clinical/Medical Practice Parent involvement in care of preterm and sick infants - bringing evidence to practise	Clinical/Medical Practice New horizons in cardiovascular research	Clinical/Medical Practice Changing clinical practice
17:00		ESPR Bengt Robertson Award			
18:00	Poster Session in the evening				
19:00	Soirée Française				

Workshops

Sat, 31 October 2026					
07:00					
08:00		Industry Symposium		Industry Symposium	Industry Symposium
09:00	ESPR Early Career Investigator Prize	EAP Young Investigator Award			
10:00	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session	Short Oral Session Abstract session
11:00	Tomorrow's World Artificial intelligence in brain monitoring in neonates	Tomorrow's World New frontiers in stem cell and gene therapies in neonatal and paediatric patients	Tomorrow's World Omics in sepsis	Tomorrow's World Paediatric societies: building a green team	Tomorrow's World Update on paediatric endocrinology
12:00	Lunch Break and Poster Walk				
13:00	Break				
	Keynote Cerebral Palsy: "Early detection, and intervention: Can we improve outcome?"				
14:00	Scientific Session Transfusion of blood products in newborns - beneficial and adverse effects	Scientific Session Necrotizing Enterocolitis: ongoing challenges	Scientific Session Outcome and long-term development of preterm infants	Scientific Session Transitional health: navigating the teen years	Scientific Session Overcoming barriers to healthcare
15:00	Closing				
16:00	Official End of CEPAS				

Workshops
